

## **POSTDOCTORAL POSITION AVAILABLE IN CANCER METABOLISM**

The laboratory of Cancer Metabolism is looking for a motivated Junior Postdoctoral Fellow to support the research of a recently funded 5-years My First AIRC Grant. The lab is located at the Molecular Biotechnology Center in Turin, an Institute specialized in Molecular and Cell Biology with fully equipped state-of-the-art core facilities.

A position is available for a Postdoc in the young team of Dr. Paolo Porporato starting indicatively on June 1<sup>st</sup>, 2019. The postdoctoral fellow will conduct a translational project in the field of cancer metabolism, focused on the role of metabolism in the development of Cancer Cachexia. Excellent communication skills and ability to work in an international team are required.

### **Requirements:**

- Holder of a PhD degree in Medical, Pharmaceutical or Biomedical Sciences or related.
- Excellence in Cancer Research, especially biochemistry, molecular biology, immunohistochemistry.
- Recent practice of *in vivo* experiments in mice.
- Fluid in spoken and written English.
- Availability to spend a training period abroad

Expertise in either MS-Metabolomics or Zebrafish will be a great plus.

Candidates should submit a motivation letter along with a CV to  
**paolo.porporato@unito.it**

Deadline March 29
